Where: Georgetown University - Lauinger Library  
When? September 9th, 16th, and 23rd  
Who? Grades 5th-8th  
Registration: [https://aspireit.aspirations.org/programs/events/1984/2017-09-09-appup](https://aspireit.aspirations.org/programs/events/1984/2017-09-09-appup)  

**What is it?** AppUp is an exciting program to help expose young girls to the computer science field. You will learn and develop the intuition and skills for the fundamental aspects of mobile application coding. You will be introduced to Java, Scratch, Android Studio, XCode, JSON, and SQLite, while inputting your creativity in these programs. You will build a demo application that is related to sustainability and create your own application by the end of the program. **Register today!!!**
